PRO
INVERSIÓN

We Are PROINVERSIÓN The Private Investment Promotion Agency, a specialized technical body of the Ministry of Economy and Finance (MEF), is responsible for promoting private investment in strategic infrastructure and public service projects for Peru. With technical and financial autonomy, our mission is to close development gaps through innovative models such as **Public-Private Partnerships (PPP), Asset Projects (AP), and Works for Taxes (WfT)**, ensuring sustainable, high-quality infrastructure for all Peruvians.

Our Vision to be Peru's benchmark in attracting private investments that drive decentralized economic growth and improve quality of life, upholding transparency and efficiency standards.

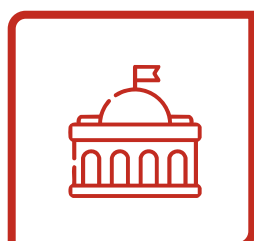

WHY WE ARE KEY

We Promote High-Impact Investments (+US\$ 46.7 billion in PPP/AP since 2002).

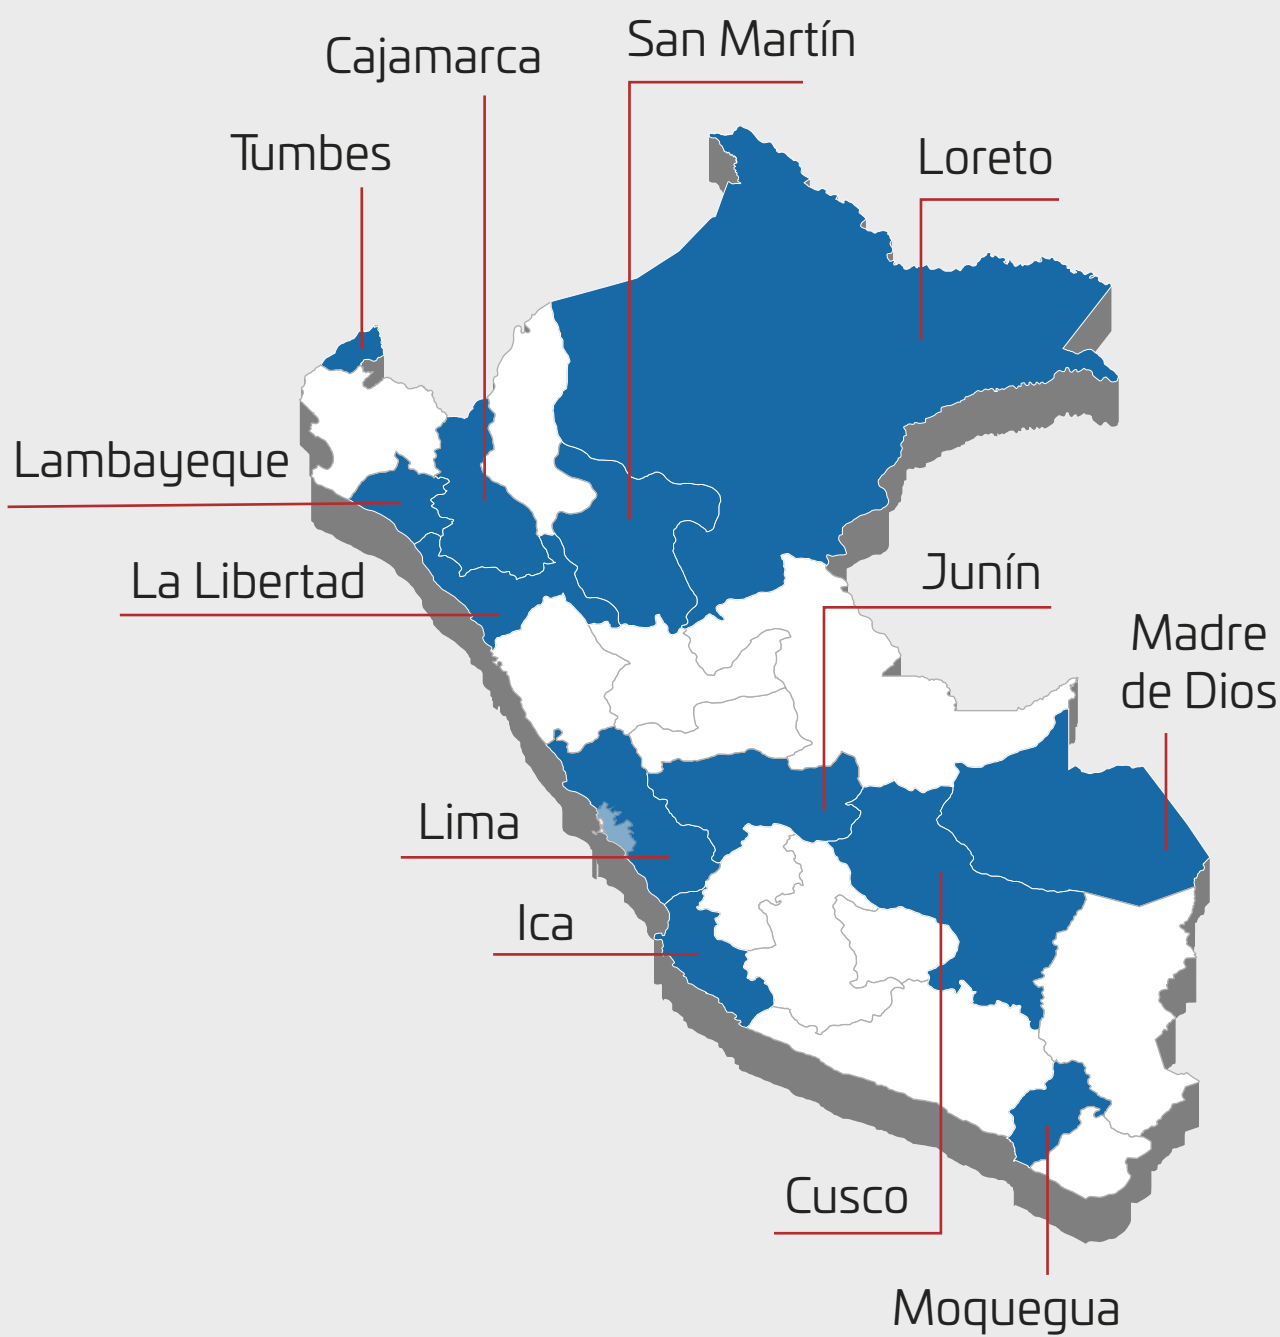

We guarantee sustainability through contracts that balance risks and benefits for the State and private sector.

We collaborate with all three government levels to prioritize projects in sanitation, transport, health, and more.

Sanitation Sector Projects 2025

PUERTO MALDONADO WASTEWATER TREATMENT PLANT

Key Works:

- Wastewater Treatment Plant (Flow: 400 L/s).
- 13,808 sewer connections.
- 171.3 km of secondary collectors.
- 20.9 km of primary collectors.
- 7 pumping stations.
- 4.4 km of conduction lines.

Beneficiaries: 197,000 inhabitants.

Investment: US\$ 122 million.

Model: State co-financed initiative (23 years).

Award Date: Q2 2025.

Phase: Transaction.

Goal: Improve health and environment in Puerto Maldonado through safe wastewater treatment.

WASTEWATER TREATMENT FOR CAJAMARCA

Key Works:

- 17 km of interceptors/collectors.
- Wastewater Treatment Plant (0.6 m³/s).
- 1.5 km outfall.

Beneficiaries: 365,000 inhabitants.

Investment: US\$ 74 million

Model: Private co-financed initiative (26 years).

Declaration of Interest: Q2 2025.

WATER SUPPLY HEADWORKS AND CONDUCTION FOR LIMA (PHASE 1)

Key Works:

Phase 1:

- Huachipa II Plant (Phase 1: 2.5 m³/s; Phase 2: 5 m³/s).
- Huachipa Main Reservoir (160,000 m³).
- 26 km South Branch with 5 reservoirs (69,000 m³).
- Interconnection lines (60 km).

Phase 2:

- Upgrades to Pomacocha and Huallacocha Bajo Dams (38 million m³).
- Trans-Andean Tunnel (10 km).

Beneficiaries: 1.5 million inhabitants.

Investment: US\$ 476 million.

Model: State self-financed initiative (30 years).

Call for proposals date: Q2 2025.

Phase: Structuring.

Goal: Increase potable water availability in East/South Lima through new infrastructure and upgrades.

POTABLE WATER SERVICES VIA SEAWATER DESALINATION IN ILO

Key Works:

- Two water sources: Pasto Grande intake (211 L/s) + Seawater intake (432.93 L/s).
- Upgrade/expansion of Pampa Inalámbrica WTP.
- New 432.93 L/s Desalination Plant.
- Conduction line upgrades (6,890 m).
- Existing reservoir rehabilitation.

Beneficiaries: 133,500 inhabitants.

Investment: US\$ 110 million.

Model: Private co-financed initiative (25 years).

Declaration of Interest: Q3 2025.

Phase: Structuring.

Goal: Improve quality of life via seawater desalination, ensuring 24/7 service compliance.

TARAPOTO & SAN JOSÉ DE SISA WASTEWATER TREATMENT PLANT

Key Works:

- 14 km interceptors/collectors.
- 5 pumping chambers.
- 2 WWTPs (total capacity: 0.7 m³/s).

Beneficiaries: 276,000 inhabitants.

Investment: US\$ 143 million.

Model: Private co-financed initiative (24 years).

Declaration of Interest: Q3 2025.

Phase: Structuring.

Goal: Integrated wastewater solution with sanitary/environmental focus.

TRUJILLO & CHEPÉN WASTEWATER TREATMENT FOR REUSE/DISPOSAL

Key Works:

- 16 km interceptors/collectors.
- Capacity upgrade to 0.9 m³/s at San Jerónimo WWTP.
- Specialized wastewater equipment.

Beneficiaries: 746,000 inhabitants.

Investment: US\$ 52 million.

Model: Private co-financed initiative (24 years).

Declaration of Interest: Q3 2025.P

Phase: Structuring.

Goal: Optimize wastewater treatment in Cusco, meeting environmental standards.

WASTEWATER TREATMENT FOR FINAL DISPOSAL OR REUSE – CUSCO PROVINCE

Key Works:

- 16 km of interceptors/collectors.
- Capacity expansion to 0.9 m³/s and upgrades to the **San Jerónimo Wastewater Treatment Plant.**
- Specialized equipment for wastewater treatment.

Beneficiaries: 746,000 inhabitants.

Investment: US\$ 52 million.

Model: Private co-financed initiative (24 years).

Estimated Declaration of Interest: Q3 2025.

Phase: Structuring.

Goal: Optimize wastewater treatment in Cusco, enhancing infrastructure and ensuring compliance with environmental standards.
